

AIMDU Gel

(Benzoyl Peroxide 5% w/w
Clindamycin Phosphate 1% w/w)

ایمڈیو جیل

DESCRIPTION:

Aimdu Gel contains clindamycin phosphate equivalent to 1% clindamycin which is a lincosmide antibiotic and 5% benzoyl peroxide, act as a active ingredient with antibacterial properties.

Mode of action:

Clindamycin binds to the 50s ribosomal subunits of susceptible bacteria and prevents elongation of peptide chains by interfering with peptidyl transfer, there by suppressing protein synthesis.

Benzoyl peroxide potent oxidizing agent.

Composition:

Each gram of Aimdu Gel contains 10mg (1%) Clindamycin, as phosphate, and 50mg (5%) benzyol peroxide, is available in 10gram lemi-tube.

Indication:

Aimdu Gel is indicated for the topical treatment of acne vulgaris.

Dosage and Administration:

Aimdu Gel should be applied once daily in the evening or as directed by the physician to affected areas after the skin is gently washed with warm water and patted dry.

Contraindication:

Aimdu Gel is contraindicated in those individuals who have shown hypersensitivity to any of its components.

Side Effects:

Some mild to moderate side effects found in individual like facial erythema, peeling, burning and dryness.

Use in pregnancy & lactation:

USFDA pregnancy Category C, Aimdu Gel should be given to a pregnant woman only for if clearly needed. It is not known whether Aimdu Gel is secreted into human milk after topical application.

Precautions:

For dermatological use only, not for ophthalmic use. Concomitant topical acne therapy should be used with caution. Avoid contact with eyes and mucous membranes.

Drug Interactions:

Clindamycin and Erythromycin containing products should not be used in combination. In vitro studies have shown antagonism between these two antimicrobial.

Storage:

Store in cool & dry place protected from light. Keep tube tightly closed. Keep out of the reach of Children.

ہدایات
دواڈاکٹر کی ہدایت کے مطابق استعمال کریں۔
شندھی اور خشک جگہ پر بچوں کی پہنچ سے دور رکھیں۔
